
Cover Letter

Dear Sir,

Allow me to thank you for introducing the mentoring opportunity. As a student who changed their course to Computer Science, I found my passion in tech and have been exploring the field on my own. I would like to develop my skills in web development and a mentor who can guide me through the journey would definitely accelerate my learning.

I have always been thinking of working on a website to improve my portfolio by learning through online videos. However, I hope to get more practical experiences and build more websites. Hence, I deem this opportunity to apply to learning more.

Sincerely,

Michelle Loh Wan Teng
